

Report-a-Polluter Form
Allen County NPDES Phase II
Stormwater Pollution Prevention Program

REPORTING FORM FOR ILLEGAL DUMPING AND ILLICIT DISCHARGES
DEPOSITED INTO STORMWATER DRAINS, STREAMS, RIVERS OR OTHER
BODIES OF WATER

Allen County would like to incorporate the help of its citizens in preventing illegal dumping and illicit discharges from being deposited into our storm drains. Illicit discharges are generally any discharge into a storm drain system or streams, rivers, or other bodies of water that is not composed entirely of clean, pollutant-free water. Illicit discharges can be in the form of fertilizers, pesticides, sediment, vehicle fluids (motor oil, gasoline, and antifreeze), paints, solvents, soaps and detergents, trash, grease, sewage, and pet waste. Illicit discharges are a problem because, unlike wastewater which flows to a wastewater treatment plant, stormwater generally flows from the storm drains to waterways without any additional treatment. These pollutants can significantly degrade the water quality of our rivers and streams and threaten aquatic, wildlife, and human health.

Thank you for taking the time to help our community prevent and eliminate stormwater pollution problems. We will investigate all incidences of stormwater pollution that are brought to our attention. Public input is an important component of our program.

Description of Discharge:

Date Discharge Occurred:

Address & Location of Discharge:

Additional Comments (ie: identity of polluter if known, has this happened before, etc.):

Contact Information (Optional):

The following contact information may be needed to effectively find and eliminate the illicit discharge if additional information is needed:

Your Name: _____

Address:

Phone: _____

Bring or mail this form to the following address:

Stormwater Quality Manager
Allen County Surveyor's Office
200 East Berry Street, Suite 350
Fort Wayne, IN 46802

Thank you for protecting our rivers and streams!
